TEXTURECLAD™ STUCCO WALL FINISHES

An interlocking architectural metal wall panel system with the rich texture of stucco

Varco Pruden uses high quality paint systems designed to provide long-term performance and protection. Each coating is formulated with thoroughly researched, tested and field proven pretreatments, primers, resins and pigments that can meet your design and performance requirements.

All colors shown approximate actual paint colors as accurately as possible. Actual paint colors may vary. Colors in this guide are for reference only. VP Buildings reserves the right to change color offerings shown here without notice. Painted stucco metal samples are available.

Note: All panels formed from light gauge metal may exhibit waviness, also known as "Oil Canning," commonly occurring in, but not restricted to, flat portions of a panel. This inherent characteristic is not a defect of material and is not cause for rejection

CHARACTERISTICS	TEST METHOD
Adhesion	ASTM D2794
Air Infiltration	ASTM E283-91
Base Metal (zinc coated galvanized)	ASTM A653 & A924
Coating	ASTM 8117.73 & D2784
Color Retention	ASTM G26
Flammability	ASTM E-84
Formability	ASTM D1737
Freeze Thaw	ASTM C666-84
Racking Shear	ASTM E72-80
Salt Spray	ASTM B-117
Structural	ASTM E1592
Water Penetration	ASTM E331-86
Water Soak	ASTM D870
Weathering	G23
